Accreditations

New England Commission of Higher Education

Les Roches Global Hospitality Education is accredited by the New England Commission of Higher Education (formerly the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges, Inc.).

Accreditation of an institution of higher education by the Commission indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes

through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Commission is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding the accreditation status by the Commission should be directed to the administrative staff of the institution. Individuals may also find information on:

Recognitions

Recognized as a degree-awarding institution by the education department of the Canton of Valais (Les Roches Crans-Montana)

Since 2015, Swiss higher education institutions have the obligation to acquire federal institutional accreditation. As a result, internationally renowned and highly ranked public and private institutions were not institutionally accredited in Switzerland.

Before 2015, Les Roches, alongside other private institutions in Switzerland, opted for foreign institutional accreditation or local recognition of programs.

Les Roches currently holds:

- Institutional accreditation since 2006 from the New England Commission of Higher Education (NECHE), allowing graduates to transfer to other institutions with an internationally recognized degree.
- Program recognition since 2002 from the higher education authorities in charge of assessing and recognizing programs within

the Valais region of Switzerland, allowing students to receive degrees endorsed by the local authorities. Les Roches academic programs are however not covered by the “Ordonnance du Conseil des hautes écoles sur la coordination de l’enseignement dans les hautes écoles suisses (CSHE)” of November 29, 2019, and thus do not provide automatic access to the Swiss higher education sector.

Constantly pursuing academic excellence, Les Roches actively seeks additional higher education accreditation in its continuing commitment to quality enhancement and to providing students with the best possible positioning to succeed in their future endeavors, both academically and professionally. As a result, Les Roches has entered the process of Swiss Institutional Accreditation, recently made available to Swiss private schools. Les Roches has been officially accepted as a candidate for Swiss federal accreditation as a University of Applied Sciences Institute.

Les Roches remains available to clarify any questions related to the above statements and to support its graduates in the recognition of their academic credentials.
