

A student's guide to BBA Connect Virtual Learning Environment

Live Sessions

Interact with instructors and other students through daily Live Sessions on MTeams. These sessions will be recorded.

Materials & resources

Videos, slides and additional reading materials to prepare for your Live Sessions each day.

Learning activities

Guided by your instructors, using a variety of digital tools, individual and group activities will take place either during or after Live Sessions.

Strategies for success

Make a schedule... and stick to it! Include breaks from your screen in your schedule, follow instructions and participate as much as you can.

BBA Connect virtual learning environment

Your virtual learning environment, Moodle will provide access to resources, activities and assessments and links to Live Sessions on MTeams.

Updates & communication

There will be a course announcements board on every course page and messaging on Moodle will allow for individual exchanges with instructors and other students. There will also be a Q&A forum on each course page.

MS teams

Meet, learn, interact! All live sessions and some group activities will take place using MS Teams.

Five things your brain needs

1. Exercise stimulates circulation
2. Sleep is critical for concentration
3. Nutrition is the brain's fuel
4. Reading transforms the brain
5. Laughter

Remote but belonging

Student affairs, career services, the SGA and more... Take advantage of every opportunity to attend virtual events and connect with your campus community.
